TEMPLATE

Better Print

MESH BANNER • 8′ x 5′10″

How to use this template:

1. Import page 2 into your design program
2. Add your design
3. Delete template layer
4. Save as PDF

⚠ IMPORTANT ⚠

Artwork

Artwork should be vector whenever possible. If you're using raster images, make sure they are 300dpi to avoid pixelation. You can use a lower dpi, but check your artwork at full size to confirm resolution is ok before sending.

Colour

For best results, set your document colour profile to CMYK instead of RGB, which cannot always be replicated accurately. We cannot be responsible for variances in final printed colours.

Save your file as a high-res PDF

Save files as high-resolution PDF. If your file is too large to save or send, scale it to 50%, 25% or 10% size and note the scale in the file name.

Embed Images & Outline Fonts

Please ensure to embed all raster images and convert all fonts to outlines. If you're unable to do this, please supply the original images and fonts when you submit your files.

Any Questions?

Please call 250-388-4488 or email info@betterprintvictoria.com Print file setup/editing starts from $25

Actual Size

Cut Line (96" x 70")
This is where we aim to cut in production.

Safe Area (94" x 68")
Please ensure all important elements of your design, such as logos and text, are inside the safe area to avoid potentially being cut off.
